Editions

There are 6 editions.

The classic 'breadbin' in 3 versions. And the 'slimline' in 3 versions.

The difference between editions

Besides the esthetics and the LED-lights are all Commodore 64 Ultimate editions exactly the same from a technical point. The founders edition comes with some additional included materials.

There is no price difference between the breadbin and slimline version. Only between basic, starlight and founders differs the price.

Breadbin

Version of the C64 with the look like it was when it was introduced in 1982.

Basic

The 'Basic beige' version with the classic look. This is also the most affordable version. [for current price](#)

Starlight

The 'Starlight Edition'. It has a transparent case and PCB with built in LED-lights with software control options for those lights. It is mid priced. [for current price](#)

Founders

Limited edition 6400 examples (almost sold out)

The 'Founders edition'. It also has a transparent case and PCB with built in LED-lights. But it has a distinctive gold-yellow colour and a golden coloured keyboard. It comes with some additional included materials like a novelty paper share of stock in Commodore. This is the most expensive version. [for current price](#)

Slimline

The version with the look of the updated version of the c64 Commodore released in 1986 as the '64C', with the more modern looking case.

Basic

Faith-full reproduction of the original Commodore 64C. Matching the look of the Commodore 128. This is also the most affordable version. [for current price](#)

Starlight

The Commodore 64 Ultimate slimline starlight comes with a transparent case and PCB and LED's providing a light show. It is mid priced. [for current price](#)

Founders

Limited edition 3200 examples

The 'Founders edition'. It has a golden coloured keyboard. It has LED's under the keyboard and comes with a gold-seal 'share' certificate. This is the most expensive version. [for current price](#)

Note: listed prices are without value added tax, shipping and potential import tax. Depending of the destination the final price can differ significantly. When ordering you get a better idea of the final price.
